BUILDING INSPECTION CHECKLIST FOR BUSINESS LICENSE

This Checklist is to be used for building inspections when a request is made in regard to review of existing or request for new business licenses. The form is designed to prompt the inspector to observe the conditions listed and respond in the "yes" column if everything is in order. Any "no" answer should be accompanied by an explanation in the "comments" column to assist in identifying and correcting the problem.

Item	YES	NO	Description	Comments		
BUILDING	BUILDING EXTERIOR (Including corridors and passageways to exits, including the exit)					
1			Are stairs, landings, and handrails in place on both sides of staircase and in good condition and fastened securely? Are stair treads in good condition?
